## About Us

---

### ***“Asia's Leading Leather Transfer Foils Trading Company”***

Starting from humble beginnings in 2010, D2 Foils has set up its own factory with all modern infrastructure in a sprawling area of 30,000 sqft at Ambur - a town in Tamil Nadu, India. Ambur is a well-known and accredited cluster for making leather and leather products, especially footwear from world-renowned brands.

The qualitative requirements of the high-end Fashion Industry and the exclusivity they demand, have been the most remarkable breakthrough of D2 to be on par with international standards. We are glad that D2 Foils is Asia's fastest emerging transfer foils industry, selling 70,000 to 80,000 meters of foil monthly and a fleet of over 40 dedicated employees.

With a broad collection of 7,000 plus articles of FOILS under various categories like Metallic Foil, Crystal Design Film, Heat Transfer Foil, Hot Stamping, Acid Foil, Self-Print, Holographic Foil, etc. D2 Foils offers all kinds of shades and designs in tune with the seasonal requirements of the leather industry. Our specialty is our vast collection of CUT PLATES and EMBOSS PLATES with the ability to create 200 different types of impressions.

D2 Foils is your 'All Under One Roof Solution' for all things Transfer Foils!

# Our Achievements

Servicing 300-plus reputable clients both locally and in around 40 different countries like USA, UK, UAE, Italy and Germany, D2 foils success can be credited to exceptional tailor-made solutions and focus on innovative products and relentless improvement in technology.

We have quickly emerged as one of Asia's leading foil transfer companies and have commanded an enviable market reputation and goodwill because of our transparent business policies and fair trade practices..

## LWG

## ISO

We're an **ISO-certified company** and also the very first foil company to be audited and certified with a **Silver-rating** as part of the prestigious **Leather Working Group (LWG)**. Not only that, but D2 foils have also built commendable visibility for itself in major leather fairs both locally and internationally.

# Our Vision

---

01

## ***We are planning to expand our plating collection.***

We're all set to expand our Aluminium cut plates from 100 to 200 by the year's end. The patterns for 50 new plates have already been developed. We're working closely with our customers to understand the current and future market needs and develop designs and patterns that are unique and trendy.

02

## ***PU (Polyurethane or vinyl) coating for bi-cast leather.***

We have started working on PU leather and trials are being conducted.

03

## ***Opening international production unit.***

It has always been the vision of the company to go global. More than a decade of experience in the transfer foil industry and more than two decades of experience being part of the supply chain of the fashion industry has given us all the necessary tools, knowledge and perspective for planning to start production abroad.

# Our Mission

---

To make sure every customer has a positive and memorable experience.

To develop lasting client relationships by providing exceptional tailor-made and innovative solutions in an environment of trust and respect.

04

# Why Choose Us?

---

01

## ***One-Stop Solution***

Whether you are looking for a particular design style, have something in mind for your leather or even if you just have an idea of a particular design, D2 Foils will deliver exactly what you want. Inspired by an Italian concept, D2 Foils aims to be your ultimate solution.

02

## ***Mastery of Cut Plates & Emboss Plates***

We can proudly say that we are one of the leading companies in this field in India. Our cut plates and embossing plate design work has built an enviable reputation and market monopoly.

03

## ***Always Ready***

We maintain 500 meters of stock in all the major foils and a sample of 20 meters in the rest of the foils. These are readily available in our inventory at all times.

04

## ***Latest Technology***

Our manufacturing units are well equipped with latest technology in machinery and power tools.

05

## ***Tailor-Made***

We make sure that all client specifications are tailor made. We deliver what you desire.

06

## ***Innovation***

Our dedicated R&D team likes to stay ahead of the curve and can predict the fashion trends of the coming season. Our team develops new articles with their relentless effort with a very well-defined quality maintenance strategy.

07

## ***Environment & Sustainability***

The company's attitude towards the environment has always been to reduce the carbon footprint of leather processing along with eco-friendly sustainable practices.
